

Product Name: NEMO AQUATIC SURFACTANT
APVMA Approval No: 67157/116238

Label Name:	Nemo Aquatic Surfactant
Signal Headings:	POISON KEEP OUT OF REACH OF CHILDREN READ SAFETY DIRECTIONS BEFORE OPENING OR USING
Constituent Statements:	315 g/L COCAMIDOPROPYL BETAINE
Mode of Action:	
Statement of Claims:	Aquatic Surfactant for Addition to Products Approved for Use in Aquatic Situations
Net Contents:	1 – 1000 L
Restrains:	
Directions for Use:	This section contains file attachment.
Other Limitations:	NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION
Withholding Periods:	
Trade Advice:	
General Instructions:	Nemo Aquatic Surfactant can be used for the addition to products approved for use in aquatic situations (non-food crop uses only). Mixing

	<p>Mix the glyphosate or diquat product with the total amount of water before adding the Nemo Aquatic Surfactant. Mix thoroughly. If Nemo Aquatic Surfactant is added during filling, foaming may occur.</p> <p>Aquatic Areas DO NOT apply this product when mixed with approved aquatic herbicides within 0.5 km upstream of potable water intake in flowing water (i.e. river or stream, etc.) or within 0.5 km of a potable water intake in a standing body of water such as a lake, pond or reservoir. Applications to moving bodies of water should be made while travelling upstream wherever possible to prevent concentration of this product in water. When making any bankside applications, do not overspray more than 0.5 m into open water. Avoid spraying across moving bodies of water, or where weeds do not exist. When emerged infestations require treatment of the total surface area of impounded water, treating the area in strips may avoid sudden impact on habitat.</p>
--	---

Precautions:	
--------------	--

Protections:	PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT Avoid contaminating ponds, streams, rivers or waterways with the chemical or used containers. When controlling weeds in aquatic situations, refer to label directions to minimise the entry of spray into the water.
--------------	--

Storage and Disposal:	Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple-rinse the empty container before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.
-----------------------	--

Safety Directions:	Will damage eyes. Avoid contact with the eyes. When opening the container and preparing the spray wear cotton overalls buttoned to the neck and wrist (or equivalent clothing) and goggles. Wash hands after use.
--------------------	---

First Aid Instructions:	If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26. If in eyes wash out immediately with water.
-------------------------	--

First Aid Warnings:	
---------------------	--

DIRECTIONS FOR USE**Situation**

Nemo Aquatic Surfactant can be used for the addition to glyphosate and diquat products **approved for use in aquatic situations**, e.g.:

- glyphosate products – approved for use in aquatic situations (i.e. Kermit[®] 360 Herbicide, Kermit[®] 510 Herbicide, Kermit[®] 700 Herbicide, Roundup[#] Biactive Herbicide by Monsanto, Nufarm Weedmaster[#] Duo Dual Salt Technology Herbicide, Eraze 360 Bi-Aquatic Herbicide)
- diquat products - approved for use in aquatic situations (i.e. Reglone[#] Non-Residual Herbicide)

When mixing with the above-mentioned products, always follow the label instructions for that product.

Application Method	Rate	Critical Comments
Ground Boom	200 - 300 mL per 100L	Use the higher rate on waxy, hairy or hard to wet leaf surfaces.
Handgun	50 - 70 mL per 100 L of spray solution	
Knapsack	7.5 - 10 mL per 15 L of spray solution	
Wiper Equipment and Controlled Droplet Applicators	1.3 mL per litre of spray solution
