

Water Soluble Powder

21.N2.9888

Nilstress

Nilstress is a specially formulated anti-heat stress water soluble supplement. It contains powerful combinations of a well balanced key vitamins and electrolytes with exceptional solubility. It is best to use during stress period where demand of vitamins and electrolytes in poultry and livestock becomes very high.

High ambient temperature coupled with high humidity is guaranteed to have a major impact on animal performance. Heat stress does not only reduce animal's performance, but worse may lead to death of animals. Moreover, reduced performance will adversely affect farm productivity and profit in the long run.

Supplementing Nilstress in drinking water helps alleviate effects of heat stress and other forms of stress and provide animals with following advantages:

- Improves survivability of birds under heat stress
- Enhances weight gain and maintain optimum feed conversion ratio even at time of stress
- Helps maintain body fluid, thereby avoiding dehydration
- Maintain normal feed intake and prevent vitamin deficiency problems
- Improves egg production and hatchability for layers and breeders
- Aids in maintaining minerals (electrolytes) transportation and retention during heat stress
- Enhances immunity and maintains healthy condition of the animals

Contents/kg

| | |
|----------------|----------|
| Vitamin A | 8.00 MIU |
| Vitamin D3 | 0.75 MIU |
| Vitamin E | 2.00 g |
| Vitamin B2 | 2.00 g |
| Vitamin B6 | 1.20 g |
| Vitamin B12 | 5.00 mg |
| Vitamin C | 15.00 g |
| Folic Acid | 0.20 g |
| Nicotinic Acid | 20.00 g |
| Magnesium | 18.00 g |
| Potassium | 25.00 g |
| Sodium | 150.00 g |
| Citric Acid | 25.00 g |

It also contains significant amount of electrolytes such as citric acid, magnesium, potassium and sodium making it an excellent product to combat heat stress.

Indications

- Is involved in normal metabolic and physiological functions
- Required for normal growth
- Has a role in normal function of the body cells and maintaining acid-base balance

Dosage and Administration

Poultry

- Dissolve 100 g per 200 L water.

Swine

- Dissolve 100 g per 300 L water.

Sheep

- Administer 2-5 g via drinking water per animal per day.

Cattle

- Administer 5 g via drinking water per animal per day.

Foals

- Administer 5 g via drinking water per animal per day.

Mares, Stallions, Race Horses

- Administer 10 g via drinking water per animal per day.

Storage

Store in a cool and dry place.
Avoid direct heat and sunlight.

Packing

Nilstress is packed in 100g,
500 g, 1 kg and 25 kg.
