

Product Name: OUTRIGHT 770 SPRAY ADJUVANT  
APVMA Approval No: 67709/134737

Label Name:	OUTRIGHT 770 SPRAY ADJUVANT
-------------	-----------------------------

Signal Headings:	
------------------	--

Constituent Statements:	Active constituents:  334 g/L NON-IONIC SURFACTANT BLEND 300 g/L AMMONIUM SULPHATE 136 g/L VEGETABLE OIL ESTER
-------------------------	--

Mode of Action:	
-----------------	--

Statement of Claims:	An adjuvant for knockdown herbicides combining ingredients for; · Excellent wetting and spreading to maximise the activity of Glyphosate and other knockdown herbicides · Overcoming the adverse effects of hard water · Enhanced penetration through wax cuticle
----------------------	--

Net Contents:	5 - 1000L
---------------	-----------

Restrains:	
------------	--

Directions for Use:	This section contains file attachment.
---------------------	--

Other Limitations:	
--------------------	--

Withholding Periods:	
----------------------	--

Trade Advice:

General Instructions:	<p><b>GENERAL INSTRUCTIONS</b></p> <p><b>Product Description:</b>          Outright 770 is a multi-component adjuvant formulation which provides a variety of benefits to knockdown herbicides in different conditions. It is particularly effective at improving herbicide efficacy under stressed conditions such as hard water or in hot dry conditions. Outright 770 contains ammonium sulphate which may reduce the antagonism that occurs when Glyphosate products are tank mixed with certain herbicides.</p> <p><b>Important:</b>          Prior to use, read all directions on this label and on the label of the herbicide being used. Any specific usage or restrictions on the herbicide label have precedence over directions for use referred to on this label. <b>THIS PRODUCT IS NOT RECOMMENDED FOR USE IN-CROP. CROP INJURY MAY RESULT.</b></p> <p><b>Mixing:</b>          Follow the directions on the herbicide product's label.  <b>NOTE:</b> To minimise the loss of activity that may be experienced when using certain herbicides in adverse conditions eg. Glyphosate in hard water, it is advisable to add Outright 770 to the water prior to adding the herbicide.</p> <p><b>Equipment Maintenance:</b>          Components of Outright 770 may be mildly corrosive to copper, brass or galvanized parts. Thoroughly flush tanks, pumps and nozzles with water after use.</p> <p><b>Compatibility:</b>          Outright 770 is suitable for tank mixing with certain herbicide products. For latest information on compatible herbicides, contact reseller or visit <a href="http://www.vicchem.com">www.vicchem.com</a>. All instructions on the herbicide label must be strictly followed. If unsure about the suitability of Outright 770 for a particular situation, trial a small area before full scale use.</p>

Resistance Warning:	
---------------------	--

Precautions:	
--------------	--

Protections:	<p><b>PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:</b>          Do not contaminate streams, rivers or waterways with the chemical or used containers.</p>
--------------	---

Storage and Disposal:	<p><b>Storage and Disposal:</b>  <b>KEEP OUT OF REACH OF CHILDREN.</b>          Store in the closed, original container, in a well ventilated area out of direct sunlight. Avoid storage below 5 oC or above 35 oC as components of this product may separate. Within normal temperature range (5 – 35 oC), it returns to its normal clear fluid state, but may require agitation to clarify. Triple rinse containers before disposal. Add rinsing to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.</p> <p><b>Refillable Containers:</b> If returning containers for refill do not rinse, instead replace cap and return to designated collection point.</p>
-----------------------	---

Safety Directions:	Will irritate the eyes. May irritate the skin. Avoid contact with eyes and skin. When opening the container, and preparing spray, wear elbow length PVC gloves and face shield or goggles. If product in eyes, wash it out immediately with water. Wash hands after use. After each day's use wash gloves and face shield or goggles. WHEN USING TOGETHER WITH OTHER CHEMICALS CONSULT THEIR SAFETY DIRECTIONS.
--------------------	--

First Aid Instructions:	If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126, New Zealand 0800 764 766.
