

Aluspray®

Aluminium spray-on bandage

The simple way to protect your horse

- ▶ Fast and easy to use spray application (doesn't burn or blister sensitive skin)
- ▶ Provides a protective and waterproof barrier, while still allowing the wound to breath
- ▶ Protects against micro-organisms (e.g. bacteria, fungi), flies/insects and environmental irritants
- ▶ Can be applied over ointments or salves to reduce the risk of infection
- ▶ Easily removed with soap and water
